

1. What is an act of unlawful interference?

- A) Scheduled maintenance
- B) Flight plan approval
- C) Unauthorized seizure of an aircraft
- D) Visual meteorological observation

☒ Correct answer: C

2. Which is an example of aerial work?

- A) Passenger transport
- B) Flight training
- C) Aerial photography
- D) Military operation

☒ Correct answer: C

3. What does an aerodrome include?

- A) Only the runway
- B) Only the terminal
- C) Defined area including buildings and equipment
- D) Just parking lots

☒ Correct answer: C

4. What is the primary characteristic of an aeroplane?

- A) Lighter-than-air
- B) Moves by wheels only
- C) Heavier-than-air using aerodynamic lift
- D) Powered by electricity only

☒ Correct answer: C

5. What does "airworthy" mean?

- A) Painted aircraft
- B) Ready for cargo
- C) Safe and approved for operation
- D) Has enough fuel

☒ Correct answer: C

6. What is a take-off alternate aerodrome?

- A) Your final destination
- B) Where you refuel
- C) An emergency landing option after take-off
- D) Where maintenance is done

☒ Correct answer: C

7. What is a flight plan?

- A) Passenger list
- B) Weather report
- C) Intended flight information submitted to ATS
- D) In-flight meal schedule

☒ Correct answer: C

8. What is RVR?

- A) Radar Visual Reading
- B) Runway Visual Range
- C) Radio Vertical Range
- D) Remote Visibility Report

☒ Correct answer: B

9. Which substance is NOT considered psychoactive?

- A) Opioids
- B) Cocaine
- C) Coffee
- D) Hallucinogens

☒ Correct answer: C

10. Who is the pilot-in-command?

- A) First officer
- B) Air traffic controller
- C) Designated pilot responsible for the flight
- D) Head mechanic

☒ Correct answer: C

---

11. What is a flight crew member responsible for?

- A) Checking baggage
- B) Air traffic control
- C) Operating the aircraft
- D) Selling tickets

☒ Correct answer: C

12. What does ELT stand for?

- A) Emergency Landing Tool
- B) Emergency Locator Transmitter
- C) Electronic Light Tracker
- D) Engine Load Tester

☒ Correct answer: B

13. Which of the following is a dangerous good?

- A) Water
- B) Batteries
- C) Sandwich
- D) Clothing

☒ Correct answer: B

14. Which category has no RVR or decision height limitation?

- A) CAT I
- B) CAT II

C) CAT IIIB

D) CAT IIIC

✓ Correct answer: D

15. What is included in continuing airworthiness?

A) Passenger safety only

B) Fuel pricing

C) Maintenance and inspections

D) Airfare tracking

✓ Correct answer: C

16. What is an operations manual for?

A) Passenger instructions

B) Maintenance guide

C) Operational personnel procedures

D) Fuel estimation

✓ Correct answer: C

17. Which device simulates full aircraft systems and environment?

A) ELT

B) Flight simulator

C) Weather radar

D) Cockpit camera

✓ Correct answer: B

18. Where is operational control exercised from?

A) Flight deck

B) Control tower

C) Operating base

D) Runway end

✓ Correct answer: C

19. What is a cabin crew member responsible for?

A) Flying the plane

B) Passenger safety tasks

C) Navigating the aircraft

D) Refueling

✓ Correct answer: B

20. What is "maintenance" in aviation?

A) Building airports

B) Marketing flights

C) Keeping aircraft airworthy

D) Selling tickets

✓ Correct answer: C

---

21. Which of the following defines an aircraft?

- A) Any car with wings
- B) Any flying machine supported by air reaction
- C) Only drones
- D) Only balloons

☒ Correct answer: B

22. What does DA/DH stand for?

- A) Daily Alert / Departure Hour
- B) Decision Altitude / Decision Height
- C) Direct Approach / Descent Handling
- D) Delay Assignment / Handling

☒ Correct answer: B

23. What is the function of the flight manual?

- A) Food service guide
- B) Navigation chart
- C) Contains limits and safe operation data
- D) Booking records

☒ Correct answer: C

24. What defines general aviation?

- A) Military only
- B) Scheduled passenger flights
- C) Non-commercial and non-aerial work flights
- D) Cargo airlines only

☒ Correct answer: C

25. Which operation uses vertical guidance but is not CAT I/II/III?

- A) Visual approach
- B) Non-precision
- C) Approach with vertical guidance
- D) VFR navigation

☒ Correct answer: C

26. Which category of landing has RVR not less than 550 m?

- A) CAT I
- B) CAT II
- C) CAT IIIA
- D) CAT IIIC

☒ Correct answer: A

27. What is an operator in aviation?

- A) Tower controller
- B) Fuel company
- C) Person or entity running aircraft operations
- D) Maintenance engineer

☒ Correct answer: C

28. When does flight time start?

- A) During take-off
- B) When aircraft starts moving
- C) At pushback
- D) When boarding begins

 Correct answer: B

29. What is a large aeroplane defined by?

- A) Number of seats
- B) Color and shape
- C) Mass over 5700 kg
- D) Number of engines

 Correct answer: C

30. Who maintains flight safety instructions for crew?

- A) Meteorologist
- B) Mechanic
- C) Operations manual
- D) Passenger briefing

 Correct answer: C
